

WHEEL HOUSE Safety Data Sheet: Pottery Glazes

Section 1: Identification:

Company Details:

Address:	Emergency Telephone Numbers:
The Wheelhouse Studio Pty Ltd, 174 Gladstone Street, South Melbourne 3205	0428138894

Product Details:

Product Name:	Product Use:	Product Code:
Mint Stoneware Brush on Glaze	Pottery Ceramic Glaze	WHG016

Section 2: <u>Hazards Identification Summary</u>:

Health Hazards:

NOT CLASSIFIED AS HAZARDOUS ACCORDING TO SAFE WORK AUSTRALIA CRITERIA.

Physical Hazards:

None

Environmental Hazards:

None. For precaution, prevent product from entering drains and waterways.

Section 3: <u>Composition and Information on ingredients</u>:

Component:	Percentage (%):	CAS Number:
Water	49.0	7732-18-5
Feldspar, Potash	<50	68476-25-5
Limestone	<30	1317-65-3
Magnesite	<10	546-93-0
Silica (Quartz)	<20	14808-60-7
Kaolin (clay)	Trace Amounts	1332-58-7
Zircon	<20	14940-68-2
Copper carbonate	Trace Amounts	12069-69-1
Carboxy Methyl Cellulose	Trace Amounts	9004-32-4
Sodium Hydroxide	Trace Amounts	1310-73-2
Bentonite	Trace Amounts	1302-78-9
1.2-Benzisothiazoline-3-one	Trace Amounts	2634-33-5

Section 4: First Aid Measures:

If swallowed:

Seek medical advice. Contact a Poisons Information Centre on 13 11 26 (Australia Wide) or a doctor (at once).

If on skin or clothing:

Flush skin and hair with running water. Remove contaminated clothing immediately and launder.

If in eyes:

Flush eyes continuously with water for at least 15 minutes. Seek medical advice if symptoms persist.

If inhaled:

Remove from contaminated area to fresh air. Apply artificial respiration if not breathing.

Notes to doctor/physician:

Treat symptomatically

Section 5: <u>Fire Fighting Measures</u>:

Extinguishing Media:

Use an extinguishing agent suitable for the surrounding fire.

Fire & Explosion Hazard:

Not flammable under the conditions of use. May evolve toxic gases if strongly heated.

The containers may burn

Fire Fighting Instructions & Equipment:

Fire-fighters should wear full protective clothing including self-contained breathing apparatus.

Use equipment/media appropriate to surrounding fire conditions.

Dispose of fire debris and contaminated extinguishing water in accordance with local regulations.

Section 6: Accidental Release Measures:

In case of spills or leaks:

Small spill:

Contain spillage, then cover / absorb spill with non-combustible absorbent material (vermiculite, sand, or similar), collect and place in suitable containers for disposal.

Large Spill:

Dispose of in accordance with all Local, State and Federal regulations by incineration or disposal to landfill.

Section 7: <u>Handling & Storage</u>:

Handling:

Before use carefully read the SDS.

Observe good personal hygiene, including washing hands before eating.

Prohibit eating, drinking, and smoking whilst using the product.

Storage:

Store tightly sealed in a cool, dry, well-ventilated area, removed from incompatible substances and foodstuffs.

Ensure containers are adequately labelled, protected from physical damage, and sealed when not in use.

Check regularly for leaks or spills.

Not subject to hazardous substances labelling.

Section 8: Exposure Controls. Personal Protection:

Exposure Standards:

Ingredient	Reference	TWA (mg/m³)	STEL (mg/m ³)
Feldspars (dust)	SWA (AUS)	10.0	-
Silica (dust)	SWA (AUS)	0.1	-
Kaolin (clay)	SWA (AUS)	2.0	-
Calcium carbonate (Calcite)	SWA (AUS)	10.0	-
Magnesite, total dust containing no asbestos and less than 1% crystalline silica	TVL	10.0	-
Carboxy Methyl Cellulose	SWA (AUS)	10.0	-
Zirconium Compounds, (as Zr)	NOHSC	5.0	10.0
Copper carbonate	SWA (AUS)	0.02	-

Engineering Limits:

Ensure workplace is well ventilated. Maintain vapour levels below the recommended exposure standard.

Wash hands and face thoroughly after handling and before work breaks, eating, drinking, smoking, and using toilet facilities.

Section 9: <u>Physical & Chemical Properties</u>:

Property:	Details:	
Appearance:	Liquid	
Odour:	Odourless	
pH:	Not available	
Melting point:	Not available	
Boiling point:	Not available	
Flashpoint:	Not relevant	
Evaporation rate:	Not available	
Flammability:	Not flammable	
Flammability limits:	Non flammable	
Vapour pressure:	Not available	
Vapour density:	Not available	
Density:	Not available	
Solubility:	Not available	
Partition coefficient:	Not available	
Auto-ignition temperature:	Not available	
Decomposition Temperature:	Not available	
Viscosity:	Not available	

Section 10: Stability & Reactivity:

Product Reactivity:

See below.

Chemical Stability:

Stable under recommended conditions of storage.

Hazardous Polymerisation:

Not expected to occur

Conditions to Avoid:

Avoid heat, sparks, open flames, and other ignition sources.

Incompatible Materials:

Oxidising agents.

Hazardous Decomposition Products:

May evolve toxic gases if heated to decomposition.

Section 11: <u>Toxicology Information</u>:

Acute Toxicity:

Ingredient	Oral LD ₅₀	Dermal LD ₅₀	Inhalation LD ₅₀
LIMESTONE (CALCIUM	> 5000 mg/kg (rat)		
CARBONATE)			
SODIUM CARBOXYMETHYL	16000 mg/kg (guinea	> 2000 mg/kg	
CELLULOSE	pig)	(rabbit)	
COPPER CARBONATE	> 2000 mg/kg (rat)	> 2000 mg/kg (rat)	

Eye Irritation:

Contact may result in irritation, lacrimation, pain, and redness.

Skin Irritation:

Contact may result in irritation, redness, pain, and rash.

Sensitisation:

Not classified as causing skin or respiratory sensitisation.

Carcinogen Status:

Not classified as a carcinogen.

Section 12: Ecological Information:

Environmental Summary:

No information provided.

Section 13: Disposal Considerations:

Waste:

Dispose of in accordance with relevant local legislation. Contact the manufacturer/supplier for additional information (if required).

Container:

Re-use where possible.

Section 14: <u>Transport Information</u>:

NOT CLASSIFIED AS A DANGEROUS GOOD BY THE CRITERIA OF THE ADG CODE, IMDG OR IATA.

Section 15: <u>Regulatory Information</u>:

AUSTRALIA: AICS (Australian Inventory of Chemical Substances)

All components are listed on AICS or are exempt.

Section 16: Any Other Relevant Information:

It should be noted that the effects from exposure to this product will depend on several factors including:

- frequency and duration of use;
- quantity used; effectiveness of control measures;
- protective equipment used and method of application.

Given that it is impractical to prepare a report which would encompass all possible scenarios, it is anticipated that users will assess the risks and apply control methods where appropriate.
